### **TournEvents.com Reports 51% Increase in Web-based Golf Tournament Management in 2006**

SPRINGFIELD, VA--(January 4, 2007) TournEvents.com provides free golf tournament management web sites to charity, corporate, association and private organizations. In 2005, TournEvents provided 379 golf tournament web sites. In 2006, 572 golf event web sites were requested and created for event coordinators which represents a 51% increase in a one year period.

"We're excited event coordinators and planners are becoming comfortable utilizing the power of the internet to promote and manage golf tournaments," said Topper Smith of TournEvents.com. "After analyzing the 2006 data, we noticed a clear trend in repeat event coordinators from the previous year. Event planners exposed to web-based event management tools are experiencing the benefits and coming back annually."

The TournEvents.com Web Service is available for all golf course, golf management company, golf retail, charity organization or other golf-related web sites and can be easily added to any existing web site with a single line of code.

TournEvents.com has been operating since May 2001 and has been enhanced over time by suggestions from professional and amateur event coordinators. The web sites are designed to save tournament coordinator's time through the use of e-mail invitations and single-source online tournament information. Each unique event web site is customizable, fully-featured, password-protected for each event coordinator and has been designed and updated with all known tournament functionality required for a successful golf tournament.
