TournEvents.com Announces Golf Tournament Web Software Breakthrough

SPRINGFIELD, VA--(October 11, 2006) TournEvents.com has added the ability to display and automatically play promotional videos to help promote golf events. At the request of the Waikoloa Woman's Golf Challenge being played at Waikoloa Beach and King's Golf Courses between October 25-29, TournEvents has included streaming video capabilities for all golf tournament management web sites. The web site is available for review at <http://www.tournevents.com/waikoloabeachresort.com>.

Established in May 2001, TournEvents.com has provided thousands of free golf tournament web sites to golf courses, charity organizations, and corporate entities for the promotion, organization, and management of golf tournaments.

The TournEvents.com Web Service is available for all golf course, golf management company, golf retail, charity organization or other golf-related web sites and can be easily added to any existing web site with a single line of code.

An example of the TournEvents Web Service is available for review at <http://www.golfeventmagazine.com/GolfOutings.aspx>.

"Event coordinators have been asking us for a better way to find golfers for their events," said Topper Smith. "The Event Magnet lets them promote their tournament on multiple web sites."

"Golf courses are selling more tournaments by offering free promotional web sites with their event packages, charity organizations are increasing donations, tournament fields are larger and built faster through the use of email invitations, and golf courses and tournament coordinators are saving time and money," said Topper Smith. "We are growing substantially each month in terms of web site visits which clearly shows we have tapped into an emerging need within the golf industry."
